INTRODUCING MYSELF

I am a B.Tech First-Year Mechanical Engineering student at Madan Mohan Malaviya University of Technology (MMMUT). Have a background in basic engineering concepts and a passion to enhance technical skills in Web Development and Artificial Intelligence. Currently engaged in learning programming concepts and latest technology stacks to acquire a diverse skill set. Looking forward to contribute to innovative projects and acquire hands-on experience in software and mechanical domains.

EDUCATION

Bachelor of technology 2025-2029

Madan Mohan Malviya University of Technology

High School 2024

Don Bosco Senior secondary school

Marks :- 76.66%

10 th 2022

Little Flower School

Marks :- 89%

PROJECTS

Personal Portfolio Website: Designed and deployed responsive website to showcase technical projects.

[Live Demo](#) [Repo Link](#)

Guessing Game: A dynamic web application that challenges users to identify a randomly generated number through an interactive UI.

[Live Demo](#) [Repo Link](#)

Password Manager | Node.js, Express, MongoDB, JavaScript :-

Developed a robust Backend using Node.js and Express to manage user authentication and secure data retrieval.
